---

Hi Keith,

Richard is heading to our warehouse now in Portland to retrieve the XRF. His cell is 503 475 4178. He and one of our contractors will assist in the transfer. Feel free to use them as a scientific/technical resource (just short of going into the field.) We are also looking into the availability of another XRF from our Seattle office.

Richard, you can reach Keith at 503 229 6431.

I'm now the Environmental Cleanup Office's rep to an EPA internal group meeting daily at 830a to discuss these issues in Portland. I'm hoping to provide an update of our activities with ODEQ. This matter has gotten the interest of our Administrator and a few of her key staff in DC as well as our Regional Administrator.

I'm here if you need anything.

Wally
